“Caring Heart Award”

The Lake Union and North American Division’s Office of Education believe that teaching young people to be actively involved in witnessing and service activities is central to the educational goals of the school and the mission of the church. For this reason, the secondary student Caring Heart Award for Christian Service has been established to give recognition to those students who have demonstrated a personal commitment to active service and witnessing activities.

Immersion Program Brings Hope and Healing

A very thankful guest of the Berrien Springs Village Church Health Immersion program did something her previous doctors said would never happen: she was able to stop taking insulin to manage her blood sugar levels. This development in her health shone rays of hope on the possibility of overcoming additional health challenges.

The Health Immersion program utilizes doctors, nurses, hydrotherapists, massage therapists, spiritual counselors, and nutrition experts to take a deep dive into the roots of chronic disease. However, the power comes from God’s simple remedies and trust in His goodness.

Has New Site

Infusion therapy can be a difficult part of a patient's journey in the fight against cancer and other diseases. A new location of the UChicago Medicine AdventHealth Bolingbrook Cancer Infusion Center is designed to improve the patients' experience as they engage in the fight against cancer.

The hospital relocated the center in February to a medical office building adjacent to the hospital to provide a more convenient and enhanced experience for patients. A special ribbon-cutting dedication was held Feb. 9 at the new facility, which opened its doors for patients on Feb. 13.

A Horrific Automobile Crash. An Outpouring of Prayer and a Miraculous Healing.

On the crisp morning of January 26, Megan Tchakarov, along with her daughter, Nora, mom Kim DeWind and a three-year-old relative, set out to visit family. With Megan at the wheel of the GMC Yukon, the vehicle crossed a small bridge on a back road five minutes into the drive. The road was slippery and the GMC Yukon they were traveling in started sliding toward the center line.

A truck barreled toward the SUV. "I remember initially as we're drifting into that lane, you see your life flash before your eyes," said Megan. "You see this big truck and just know you're going to hit it."

The two vehicles collided at 50 mph, nearly demolishing the vehicle's passenger side, where Kim and Nora sat. The impact would render Kim, Megan and Nora unconscious.

This Month in Adventist History

On June 7, 1960, thirty-one Seventh-day Adventist Theological Seminary students joined forces with members of the Rockford, Illinois Seventh-day Adventist church to set up and inflate this "Airatorium" (air auditorium) in the field next to the Rockford church school. The Airatorium hosted the Summer Field School in Evangelism, which ran for three weeks. During this time, church members and seminarians ministered to the citizens of Rockford through individual bible studies and evangelistic meetings. The program ended with an all-night prayer session and several successful altar calls. A lively report appeared in the Lake Union Herald issue for July 26, 1960, and follow-up Field Schools were planned for 1961 and 1962.
